

S&T Bank

Julie I. Zolocsik  
Vice President/  
Senior Executive Assistant

S&T Bancorp, Inc. is a \$6.1 billion bank holding company that is headquartered in Indiana, Pa. and trades on the NASDAQ Global Select Market under the symbol STBA. Its principal subsidiary, S&T Bank, was established in 1902 and operates in 16 counties across southwestern and south central Pennsylvania, with loan production offices in northeast and central Ohio, and western New York. We spoke with Julie I. Zolocsik, Vice President/Senior Executive Assistant at S&T Bank.

1. Tell us about your role at S&T Bank.

One of the major components of my job is to coordinate various activities related to the Board of Directors, including preparation of board meeting materials. I am also responsible for various secretarial and administrative duties for the bank's senior executive staff.

2. What were some of the main challenges your company wanted to solve?

As the banking environment is constantly changing, the role of the Bank Director is constantly evolving. Board members are held more accountable and are expected to be familiar with all of the materials distributed at the board meeting. Prior to contracting with Boardvantage, S&T's Board members were provided with hard copies of documents upon arrival at the board meeting. Therefore, they were expected to read and digest all of the information in a very short period of time. We wanted to provide them with the opportunity to review the materials in a more timely and less cumbersome manner.

4. Why did your company choose Boardvantage?

Boardvantage presented the best solution for the best value, and we were very impressed with the personnel presenting the product. I can't say enough about the support we receive from our account manager, the onboarding specialist, as well as the on-line support team.

5. Can you highlight the results of adopting Boardvantage?

It was a very smooth transition. The personnel at Boardvantage offered excellent training and provided an exemplary support system for any troubleshooting on issues that may arise. The electronic board book has provided our directors with the opportunity to review information much more thoroughly.

6. What are some of the main features of Boardvantage that are used by your company?

We use the electronic board book as well as the document repository for posting other documents for review. We also use the calendar and the briefcase functionality.

7. Is your company using Boardvantage beyond the board?

Our loan committee has begun to publish an electronic book for use in their meetings.

---
